

FISCAL NOTE

TO: Chief Clerk of the Senate
Chief Clerk of the House

FROM: James A. Davenport, Executive Director

DATE: February 7, 1996

SUBJECT: **SB 3105 - HB 3013**

This bill, if enacted, will prohibit any state agency or county from raising or stocking rockfish, Cherokee bass and other hybrid thereof or alewife in any portion of Norris Lake located in Campbell County or any of its tributaries located within such county. Tennessee Wildlife Resources Agency is required to establish a no size limit or creel limit for rockfish, Cherokee bass or other hybrid, or alewife on any portion of Norris Lake within Campbell county or its tributaries.

Further, the Tennessee Wildlife Resources Agency is required to establish a no size limit on any species of crappie taken from any portion of Campbell county or any of its tributaries; however a daily limit of 20 crappie taken per person per day on Norris Lake in Campbell shall be in effect.

The fiscal impact from enactment of this bill is estimated to result in a decrease in state and federal revenue from the sale of fishing licenses; however, such decrease cannot be determined but is estimated to be not significant.

This is to duly certify that the information contained herein is true and correct to the best of my knowledge.

A handwritten signature in black ink, reading "James A. Davenport". The signature is written in a cursive, flowing style.

James A. Davenport, Executive Director
